The science of food is on the menu at *megaBITE*, presented by Jefferson Community Technical College

Science Center's Adult Series continues with strolling hors d'oeuvres & gastronomic science

Louisville, KY (February 9, 2015) – The Kentucky Science Center's Adult Series continues this month with *megaBITE*, an adults-only night on February 12 at the Science Center sponsored by Jefferson Community Technical College. Beginning at 6:00 p.m., guests can explore the science behind food, sample local and eclectic bites, engage in demonstrations, and romp through kids-free exhibit experiences. Partners will include local favorites such as Louisville Cream, Marketplace Restaurant and Wick's Pizza Parlor. Tickets for the event are \$20 for non-members and \$15 for members. Discount codes are available on the [Science Center's website](#). Visitors must be 21 or older to attend.

"You never outgrow science," said Science Center Executive Director, Joanna Haas. "Combining Louisville's eclectic and world-renowned food scene with our passion for inspiring a lifetime of learning, an event like *megaBITE* gives grownups the chance to really dig in and DO SCIENCE."

Last October, the Science Center kicked off its 3rd Adult Series with *exBEERiment*, which marked the first of three events including this month's *megaBITE* and the *NEW GAMEology*, which will explore the science behind games this May.

The Science Center's Adult Series formula of cash bars, kid-free exhibits and hands-on demonstrations will be integral to this year's *megaBITE*. Science Center staff will operate a molecular gastronomy lab à la Alton Brown's "*Good Eats*" where guests can dive in to discover the science behind the food they love. Free samples of local and eclectic food from partner institutions across Louisville will be available while supplies last as guests meander through the Science Center's progressive dinner: appetizers on the 1st floor, main courses on the 2nd floor and desserts/cheeses on the 3rd floor.

The main attraction at *megaBITE* will take place in the Science Center's lobby as local chefs from Café Magnolia demonstrate their culinary prowess. This event will be emceed by Jesse Rasmussen, local on-air personality with "*The Lambert & Lindsay Show*" on 102.3 The MaxFM.

Tickets are available in advance by calling (502) 561-6100, ext. 6111 or visiting KYScienceCenter.org.

***About the Kentucky Science Center* (KYScienceCenter.org)**

Kentucky Science Center is a nonprofit educational institution that encourages people of all ages to do science in engaging, educational and entertaining ways to inspire a lifetime of learning. Designated the "State Science Center of Kentucky" by the 2002 Kentucky General Assembly, Kentucky Science Center features interactive exhibits and engaging programs for children, families and adults. Kentucky Science Center is committed to growing a scientifically literate community that investigates, questions, and challenges.
